NEW BOOK SOCIETY OF INDIA, P. O. Box No. 250, New Delhi (India)

New Educational Directory of the World.

India Today!

By Jack Finegan

Vivid account of life in India, plus 50 photos

Have you ever seen your reflection and wondered if you appeared that way to others? Here is a book which looks at India, not as a native looking at himself, his neighbors and his country, but as an outsider, wondering, interested, and observant.

It is not, however, the casual traveler who writes this book but a skilled observer, an American whose background and study enable him to give a concise, objective account of INDIA TO-DAY. Personifying the Greek concept of "A sound mind in a sound body," the author of this book, Jack Finegan, is noted as a scholar, archeologist, sportsman, author and Christian minister. He has, moreover, spent a year in India on a Fulbright Award for research in archeology and religion. Beginning with fundamentals of geography, Dr. Finegan interprets their effects on the people. He follows history through the work of Gandhi, Nehru and others in their fight for Indian independence to the present democratic republic. Considered, too, are the many religions implanted in the Indian people which influence so profoundly their way of life. Into one great mosaic, Dr. Finegan places the diverse facets of India, studying its racial, historical and cultural background, as it influences the world today. Fifty superb supplemental photographs. $ 4.25

Hira Lal of India

By Leta May Brown

Story of a native medical doctor's conversion.

A warm true-life story which proves the appeal of truth over fiction. Presented with all the details, excitement and story development of fiction, this account of the life of a native doctor, Hira Lal, holds you intrigued from the fascinating incidents surrounding his birth to his fulfillment in God's service as a doctor of both the body and spirit.

In her 35th year as a Christian missionary in India, Leta May Brown tells of a country and people she knows well. The locale of the story is Mungeli, India, a station where Miss Brown serves but the example of Hira Lal symbolizes eloquently the place a native Christian anywhere may take in the hearts of his people. An epoch of missionary endeavor, this book will elicit soul-felt response to a life of spiritual achievement. — — $ 3.00

Thoughts of Napoleon

EDITOR : N. B. SEN

Napoleon was not only a great military genius, but was also a prudent Law-giver, a passionate lover of women and a born commander of men. He was endowed with a rare gift of imagination. The views and thoughts expressed by him, from time to time, on various topics of common interest, during his eventful career, are recorded faithfully by his various biographers, critics and admirers. The Editor has, after an extensive study, collected his inspiring thoughts, military maxims and wise sayings and classified them under suitable subjects.

Thoughts of Bacon

EDITOR : N. B. SEN

This is an exhaustive collection of the imperishable thoughts of the great Philosopher, Thinker and Writer of the 16th century, whose acuteness of observation, profundity of views and directness of style have been admired and respected throughout the world. But it is in the field of philosophy that this "greatest, wisest and meanest of mankind" shines with splendid lustre. The Editor has made a careful selection from his voluminous writings and placed them under suitable headings.

THE STORY OF
THE SEPTUAGINT BIBLE

The Oldest Old Testament

Now published by The Falcon's Wing Press, *Indian Hills, Colorado, in an edition in which nothing has been spared.*

All readers of the Bible — laymen, students, clergymen or scholars — should own THE SEPTUAGINT BIBLE.

BECAUSE...

- **the SEPTUAGINT BIBLE was the Bible text known and read by Jesus.**
- **the SEPTUAGINT BIBLE is the oldest version of the Old Testament in existence.**
- **the SEPTUAGINT BIBLE is referred to in the New Testament when Jesus, and Paul with the other Apostles, quote from the Old Testament.**

the SEPTUAGINT BIBLE explains these passages in the New Testament which are quoted from the Old Testament.

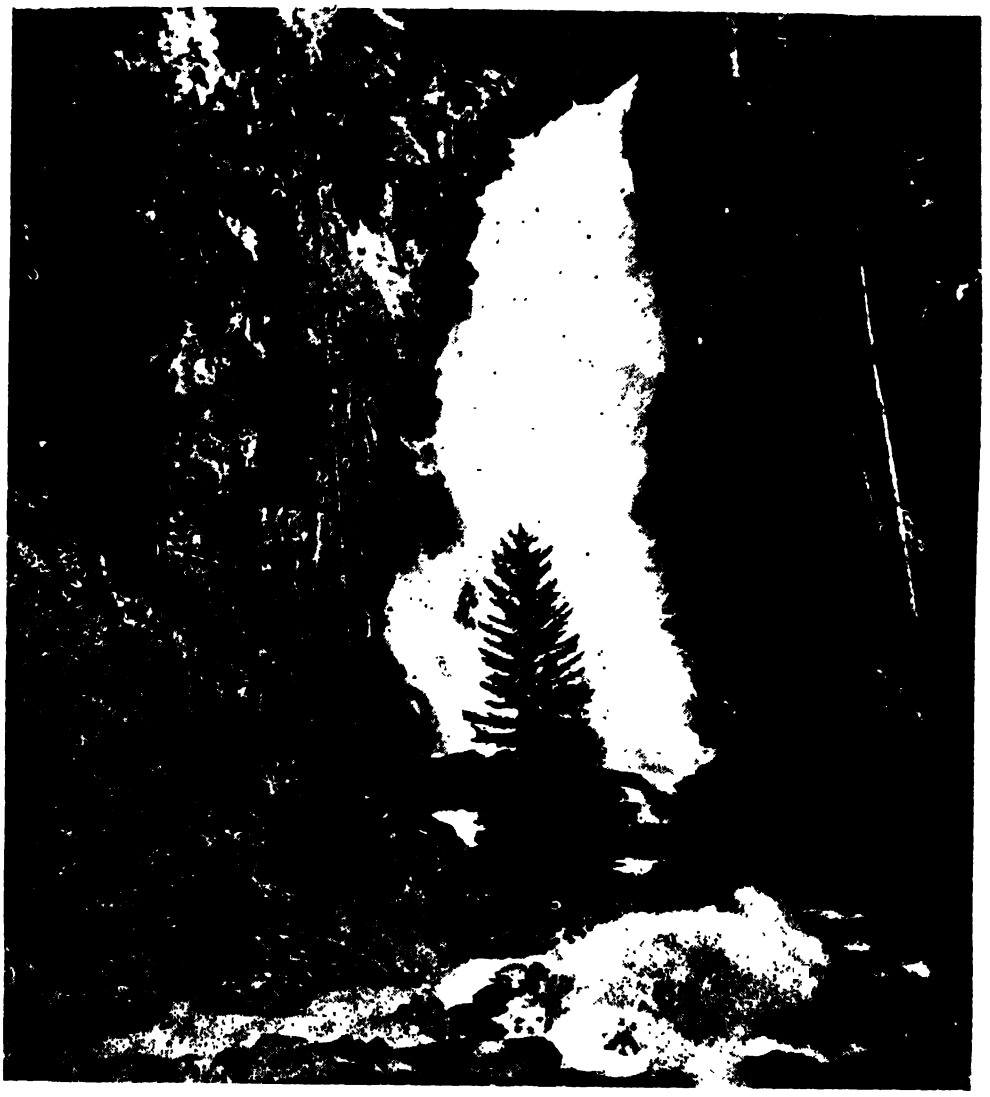

The ordinary Bible you now read will be clearer, and a living experience, if you have the SEPTUAGINT BIBLE also making your Bible more significant to you BECAUSE:

Only THE SEPTUAGINT BIBLE can supply those portions of the text that have been lost. THE SEPTUAGINT BIBLE is not a restoration. It is an actual ancient text never before made available to the general public as well as students.

Read the fascinating story of this great book's history and rediscovery, which has been condensed for you in this brochure.

New Educational Directory of the World

To Peter was given the answer

CHAOS AND CONFUSION is the rule of the day. WHY?
Is it not because we as a once great people of leaders have all but ignored the command of the *Nazarene*: "FOLLOW THOU ME."
St. John accepted this command literally. If John were here today and writing his text, it could not apply more directly to Americans, their inertia and uncertainty; their LOSS OF SPIRITUAL CONCEPTS; the cause of our confusion in all departments of life, family, business and government; nor could he point out more clearly the WAY to reestablish ourselves in our former leadership of the peoples of the world; nor warn us more certainly of our final fall if we refuse to return to moral and spiritual verities.

the Interpretation of St. John

by Rev. Dr. R. Swinburne Clymer

The Spiritual concepts accepted and applied in everyday life, the teachings of this book will bring to the individual a renewed sense of strength; of certainty, and a growing consciousness of freedom as the result of a more complete expression of his innate powers.

The "ANNALS"—

the outstanding Journal in the field of Internal Medicine.

Annals of Internal Medicine has been the official publication of The American College of Physicians since 1927, succeeding the Annals of Clinical Medicine which was published by the College from 1922 to July 1, 1927. Its position as a leading periodical in the field of internal medicine is attested by its rapidly growing circulation which in 1957 passed the 21,000 mark It is pre-eminently a clinical journal addressed to the practicing internist. Its aim is to acquaint him with the results of clinical as well as laboratory investigations in the broad field of medicine and its allied specialities.

CONTENTS

The Annals of Internal Medicine serves as the medium for the publication of the more important papers presented at the Annual Sessions of The American College of Physicians. In addition it presents the valuable work of many contributors from the United States and Canada, as well as foreign countries. In recent years a feature of each issue of this journal has been a section on Case Reports. From time to time, reviews of important fields in internal medicine by acknowledged authorities are included. The cultural side of medicine, as well as the scientific and purely clinical, is represented.

INTERLINGUA

An abstract of each original article appears in Interlingua, to enable readers who do not read English fluently to quickly evaluate each paper and so determine whether it merits a laborious study or translation.

NEWS NOTES

The News Notes give information concerning the activities of The College and its members as well as matters of national and international medical interest.

EDITORIALS

Editorials on subjects of special interest to the readers appear monthly.

UNIVERSITIES

OF

THE WORLD

Some Thoughts on University Education

A University should be a place of light, of liberty, and of learning.

D' ISRAELI, *in the House of Commons.*

The true University of these days is a collection of books.

CARLYLE, *Heroes and Hero-Worship.*

A University-an institution consciously devoted to the pursuit of knowledge, the solution of problems, the critical appreciation of achievement, and the training of men at a really high level.

ABRAHAM FLEXNER, *Universities.*

You can lead a man up to the university, but you cannot make him think.

FINLEY PETER DUNNE, *Mr. Carnegie's Gift.*

I am undone ! while I play the good husband at home, my son spends all at the university.

SHAKESPEARE, *Taming of the Shrew.*

A fool's brain digests philosophy into folly, science into superstition, and art into pedantry. Hence University education.

BERNARD SHAW, *Maxims for Revolutionists.*

ANNOUNCE THREE IMPORTANT BOOKS :

MUHAMMAD'S PEOPLE By Eric Schroeder : A history of Islam from the time of Muhammad through the eleventh century, composed of anthology of contemporary writings. It covers the 'great' period of Arab Islam, to which modern Arab culture now returns for refreshment. $ 10.00

FRAGMENTS OF LIFE, METAPHYSICS AND ART By Leo Bronstein : This extraordinary book provides a new approach to art history in an unusual series of letters purportedly written by individuals in various walks of life—a soldier, a teacher, a student of mathematics, a criminal, an elderly Chinese scholar. They bring out a common recognition of the role of art in life; and lead to an imagined dialogue between two of the letter writers. Their stimulating discussions illuminate, and are illuminated by, a selection of 67 plates, some of which have never been published before. $ 6.50

OH! FICKLE TASTE or Objectivity in Art By Germain Seligman : Although chiefly concerned with standards and origins of taste in art, Mr. Seligman's presentation of the subject has wider scope than a historical appraisal of our taste and its effect. His effort is toward a living participation in art that will bring people to the museums.
